

Masterfil® Reusable Fryer Filters

What makes Masterfil® Different?

Superior Reusable Technology

Reusable weekly filter that filters down to 0.5 micron vs. 40+ micron standard media.

Oil Waste Reduction

Masterfil® eliminates daily saturated filter oil waste of 1.5 – 3 lbs of oil per filter change.

Labor Savings Benefit

A simple 3–5 minute cleaning task replaces the standard 20+ minute process to clean & replace daily paper.

Oil Life Extension

Using depth filtration technology, Masterfil® captures down to 0.5 micron, allowing for up to 50% longer oil life.

Safer Option

No handling of a hot daily filter.

Additional Benefits for Envelope Style Filters

Maintenance Cost Reduction

Masterfil® envelope-style filter creates a sealed system that eliminates particulate passing into internal plumbing - huge reduction to clogs and critical component failures.
